

PCS Checklist

for
Kids

- A family meeting is a great time to talk about the upcoming move.
- With your mom and dad's help, learn things about the new place where you'll be living.
- Get the email addresses of your friends and teachers so you can keep in touch.
- Write down some of the places you want to visit once mom and dad are settled.
- Look at photos of your new school and the sports and activities they have. Get excited!
- Ask your parents how you can help them prepare for the move. And then do what they ask. 😊
- Pack your backpack with your favorite things with what you'll need on moving day.

Remember to give your parents a hug.
PCS moves are hard on grown-ups too!
